WOODSTOCK FIFTH & SIXTH GRADERS RAISING \$1,500 FOR BOSTON TRIP

The fifth and sixth graders at Woodstock Elementary School are working against the clock to raise \$1,500 for a two-day field trip to Boston. The students will be leaving May 11. They will visit Strawberry Banke in New Hampshire. Then on to Boston for a visit to the Aquarium and the Science Museum and a sightseeing tour of a city so important to American history.

In order to raise the money needed for museum tickets, food and accommodations, student and parent volunteers have been hard at work. There have been bake sales at Stowill's mill, a fund raiser in progress now is offering an entire typewritten sheet full of excellent prizes! Winners' names will be announced May 4 at a supper the classes are sponsoring. And speaking of sponsoring—there will be a walk-a-thon on April 24. Please start saving bottles for the bottle drive May 4. Finally on April 28 from 10-2 there will be a Flea Market in the W.E.S. Gym. It is hoped people from neighboring towns will participate in donating items such as furniture, appliances, toys, clothes, etc. They may be brought to the gym starting at 8:00. This is an opportunity to do some very useful spring cleaning and pick up some excellent bargains in the process!

Working together, students, teachers and parents have raised over \$500 so far. There are only three weeks left to obtain the rest. Your support is needed! Call 665-2188 for further information.

Mr. and Mrs. Floyd Emerson recently received a note and a Tuskegee Gram from an Appalachian Trail Hiker, Dr. Winston Lumsden, who stopped at their camp at Surplus Pond which is near the Appalachian Trail in May 1983. In the Gram he had written of his adventures and folks he met on the trail, especially of the fears—mosquitoes, difficult terrain, wild animals, hypothermia, lack of sleep, limited food supply, that all had to be conquered—and the quest for the next lean to!

He took time off the trail to run and complete the New York Marathon in October 1983 and plans to do it again in October 1984. According to Trail records Dr. Lumsden is the second black person to hike the trail from North to South and the first to hike both ways. In the Gram he also wrote he remembers running around Tuskegee Institute and people considered it odd. Now everyone is running and it's called jogging. A physical fitness buff—he writes this makes him happy as everyone over 50,

GIRL SCOUT TROOP 712

Girl Scout Troop 712 has been very busy working on different badges. We took a trip recently to Frieden Dorf in Bryant Pond where we learned all about pottery and how to fire it. Mrs. Corrin and her apprentices worked with us making masks. They came out really neat! During our meetings we learned about cameras and took pictures of each other with our masks. Our cookie sale was pretty good. The money we raised is going toward a trip to Boston later in the year. Thanks for buying our cookies. — Staci Bean, Denise Coolidge, Michelle Perry.

High St., West Paris

Sent in by Viva Whitman:

It is supposed to be Spring, but where is that nice warm sunny weather we think of as being the sure signs of Spring. It seems as though the sun must have gotten lost, no more than we have seen it lately. It might blind us for a little, but I wish it would come out of hiding and let us see it once more.

Russell and I have been busy in spite of the weather. We have decided that the sun isn't going to co-operate with us anyway, so we have been doing a lot of painting to seal in all the formaldehyde we can and if paint can do it, there shouldn't be too much left when we get through. I can't tell you how much lighter the rooms are that we have gotten painted. The paneling was a dark brown and we have painted the top half of most of the rooms a light color and then put molding along the wall dividing the colors. We think it looks a lot better and that is what counts.

Had a lady and gentleman come Monday to put a jacket on the water heater and new fittings on the faucets. The jacket is supposed to help save on electricity, so we will wait and see if it does what it should.

Sister Laura Hatchins of East Andover had called Monday night to let us know of our cousin, Ona Tyler's death. We don't take a daily paper so hadn't heard about it. The funeral was to be on Tuesday at 1:30 and Laura wanted to know if we were going. As I had had Ona cut my hair for a number of years when she worked in her beauty shop, I was anxious to go. Russell and I had spoken of stopping to see the girls some day, but just hadn't done it. I didn't know that she was so sick or would have tried harder to go see her. My Wynona was up to work at the Child Health Clinic. So joined us going to the funeral.

Wednesday, we were going to town to do the wash and then to the doctors at Fryeburg, but got a call that he wouldn't be in until the next day. We went and did the wash anyway and then painted some more and got molding put up part of the way. Didn't figure right when we got the molding so had to get more and stain it.

West Greenwood

— Carolyn M. Colby, Corres. —

Alan Wilson is spending school vacation with his uncle, Jeff Carril, in Waterboro.

Denny, Rita, Doug, and David Wilson arrived home Saturday evening from a vacation in Florida. Mindy stayed a few more days and plans to fly home today—Tuesday.

second and fourth Saturday night of the month and I have tried to line up some good programs for the summer months, and will keep trying to the best of my ability. We welcome any visitors who would like to come and try to make them feel at home and have a good time, so if you have nothing better to do, why not come to Grange? If you don't belong now, we would be glad to get applications to you and have you join. We really need your support, so don't let us down.

Sunday has been another day of painting for Russell and myself. No callers, so as the saying goes, "The better the day, the better the deed." If that is so then our painting should look especially nice.

Guess the robins think Spring has sprung as we have seen a few, but not too many. We keep having new birds appear and love to watch them. If it ever gets warmer, I hope to be able to go out and enjoy the outdoors, but it still feels too cool for me to go out much yet.

Guess I've rattled on enough for this time, but I would like to thank Richard Felt of Franklin Grange, Dorothy and Harold Canwell, and Evelyn Jackson of Oxford Grange for their most pleasant appearance at Bear River Grange and the help given on Saturday night. God bless them for coming to support us.

NOTICE

There will be an informal meeting of Purity Chapter #102 O.E.S. officers and others interested in working for the Chapter in 1984-1985 on Wednesday, April 25, at 7:30 p. m. at Dick and Nesta Littlefield's home, South Bethel.

come. Our Grange meets every day for our trip to Fryeburg and then we had to go to Lewiston also. We were grateful for the best weather of the week. We stopped in Bridgton to have lunch before going on to Lewiston where I had an appointment to keep. Russell and I took supper with Wynona before heading for home.

My throat started getting sore and Friday, I was sick all day with this cold that hit me. They sure like to visit me real often, or so it seems. Still coughing my head off and sneezing and all the good stuff that goes with a cold. Should be used to it by now, after this winter and the miseries it passed in my direction. I didn't feel up to going to town with Russell to get groceries, so the dog and I stayed home. We put on more molding during the day but ran out so had to wait for the new molding Russell got to be stained and have polyurethane put on it to make it shine. However, it is ready now and I expect we will soon have the rest of it in place.

Saturday was Grange Night at Bear River Grange and I didn't know whether I'd be able to make it or not, but with a cat nap or two in the afternoon, I was able to and have a good time. It would be better if more members would come support us. If they don't I'm afraid our Grange will fold as just a few can not do all the work and make an organization work for its best purpose. If we hadn't had guests from Oxford Grange, we wouldn't have been able to have a meeting. As it was, we had only six members of our own Grange come and four guests. We had a bountiful pot luck supper as usual and a good program. As Lechner, I had planned for Scrambled Officers Night and each one bring something for the program. I am happy to say that everyone there was most helpful and we had one of the best programs we have had for a long time. I just wish others would come and enjoy the good times with us so we won't have to close down the Grange. We need help and we need members. Our next meeting is Instruction with our Deputy present. There will be a 6:30 pot luck supper as usual and hope more members will

— Mrs. Arline Bernier, Corres. —

The news behind the news in regard to the criminal capture which took place in Colebrook last Friday. This you are unlikely to get from C.B.S. and the Citizen may be exclusive. The news media called those in charge as to whether they might fly into Colebrook using a landing strip there and were informed that the strip was in Springtime condition and not fit for a plane landing. They came anyway and did several thousand dollars worth of damage. I suppose they had to be first with the news but the general public wouldn't have suffered had they waited another 24 hours to know about the event any more than you who are hearing this for the first time suffered by waiting a week to know. To misquote Shakespeare "What strange fools these mortals be."

Ellie Lacombe, R. N., who has regular duty at Colebrook hospital as surgical nurse and is also on call, was called in Friday afternoon. Donald and Rose Scott who are working on their advanced First Aid training were also in the hospital in Colebrook in that capacity.

The surgeon from Colebrook was in North Conway at a special meeting and flew in a helicopter to Enrol International Airport and from there went to Colebrook with the Enrol Game Warden, Warren Jenkins. The Attorney General from Concord, N. H., also flew into Enrol and Mr. Jenkins made a second trip to escort him to Colebrook.

A local man had been injured by a chain saw Friday which was a factor in requiring more of the medical staff in the hospital.

I admire the courage of the officer who was injured in the fracas. According to very reliable sources the bullets fired were intended for the officer and not for self-infliction.

Ryan and Jerry Bernier spent a couple of days with their aunt, Laurie Bergeron and family. The Bergerons were guests of the Andrie Berniers Saturday evening. I attended the Open House at

Tuesday, April 10, Mr. and Mrs. A. Cummings and daughter, Cathryn Lovejoy joined Mrs. Ellen Whitney for lunch in Bethel.

Mrs. Cathryn Lovejoy was celebrating her birthday all the week with dinners with Mr. and Mrs. Rick Whitney in Bethel, Sunday night, with the Alanson Lovejoy family on Friday night, and in Rumford Saturday night with the West family at a restaurant in Mexico. Her husband and parents joined her at most events.

Sunday, April 15, Miss Angela Lovejoy was seven years old. After Sunday School, she was given a party at her home with a large gathering, that included grandparents from both sides of her family. Her mother fashioned the original cake. Miss Angela went to Rumford for a visit with her aunt, Marlene Sweetser, that night.

Miss Rebecca West of Rumford is having a visit with her grandparents, Mr. and Mrs. C. R. Lovejoy, during school vacation.

Mr. and Mrs. A. R. Cummings were in Norway Thursday on errands. They visited Forest Martin near Norway Lake and Mr. and Mrs. Arnold Sennett in West Paris, on their way home.

The neighbors of Mr. and Mrs. Clarence Rolfe are happy to have them home from four months in

the Village Gallery in Temple Saturday. Featured were many paintings by a variety of artists including Melanie, my favorite artist. Included was a portrait of my beautiful Mama from a snapshot of her during the last summer of her life. She was at the home of Larry Wade during the last of his community outings when the picture was taken.

The snow cover has nearly gone and the road beds are settling down.

The school children are home for a week's vacation.

Some moose are being sighted in the moose crossing of Graton Flats. Some folks in a Vermont car watched a mother and baby moose feed there Saturday.

Rotary Club News

The Bethel Rotary Club held its regular weekly luncheon meeting at the Sudbury Inn on April 17. The program chairman was Roger Conant and his program was, speaker Ray Hareington. He spoke on the Boy Scouts program in Bethel, and the history of Scouting. The Scouting movement began in England and over the years has expanded world-wide. Scouting in the U. S. was chartered in 1910. There are 26 Scouts in Troop 565. Bethel will be hosting the Spring Camporee, May 18-20. Good luck Ray and the Scouts.

The District Assembly meeting held in Waterville, on April 14 was attended by Jim Monahan, Roger Conant, Rollie Glines and Lemmie Shaw. This is the assembly that provides the initial introduction of the new District Governor, including Rotary Club presidents, directors of services, and others. All local representatives agreed that the meeting furnished valuable guidelines and information for application and development in the Rotary year 1984-85. Some of the information extending from the Assembly was relayed to the members at the Tuesday meeting. Jim Monahan will use his May 8, 1984, program time to talk about organizational planning and goals for 1984-85, based on recommendations made by the present and the incoming District Governors, and other speakers, at the Assembly.

Romeo Baker, Rotary Information Chairman, provided an interesting program for the members. He departed from the hard facts of Rotary, and talked about moles, voles, and other little rodents that do damage to lawns and gardens.

ON BROTHERHOOD:

As Scoutmaster of Boy Scout Troop #565, of Bethel, Maine, I recently assigned one of the Scouts the task of writing a short essay on the subject of Brotherhood. My objective in this plan to call attention to the fraternal relationship that is the strength and support of a Scout Troop.

I received many good renderings, all of which were varied, but touched upon the prescribed subject matter in one form or another, however, it was the following that was turned in to me on one of several different sizes, shapes, and quality of papers received that I felt did what I had hoped for: in his own words I will share that which was offered by one of my newer Scouts, and I quote:

"In the dictionary the meaning of Brotherhood is: The quality of being brotherly; fellowship." And then he continues to write, "Brotherly is acting like being brothers. This relationship can be in a family, a club, a church, or other places where people work closely."

"If brotherhood means being close with others there should be caring for one another. This should make a person trustworthy, helpful, and dependable. In return you should expect to get the same qualities from your brother or brothers. Brotherhood does not only exist among boys and men, but also among girls and women. It also should take place among men and women and among Nations."

"In an organization, brotherhood should unite people. If it does this for its members it should make the organization strong. Good brotherhood among Nations will make a better place to live."

By: Brian Hughes
Well, there you have it, one short essay, from a young Boy Scout who could very well be a part of the structuring force of our community and our country some time in the not too distant future.

REPORT OF BETHEL COMMON FUND COMMITTEE

The fund raising for the Fountain on the Bethel Common Fund continues to grow. Since the first contribution on March 30, the fund has reached a total of \$1,425, over one-half the goal according to Mary C. Keniston, treasurer of the Fountain on the Common Committee.

"Geet" Hall McNally from Hampden, wrote a note with her check—"I am so happy to read there is to be a replacement for our 'dear old fountain.' I miss it every time I go to Bethel." From Augusta, Margaret Herlick Oakes wrote to Mary, "Do you—do you old enough—to recall when the old fountain was more than just a dribble? When the water pressure was good and high it would spurt out in a regular column of water and the drops of water would blow on the wind in a fine mist. I can't seem to picture the Common as it was the last time I saw it, but it was far from being the Common from my childhood. With best wishes for an adequate fountain fund."

Contributors since the last report are: Mr. and Mrs. Donald Walker, American Legion, Mr. and Mrs. Edwin Brown, Western Maine Supply Co., Mr. and Mrs. Dana

"HABITAT" BUILDS HOUSES, CUTS HUNGER

"People who are economically poor need capital, not charity. They need co-workers, not case-workers. They need partners, people who love and respect them, and who will help free them from the burdens they bear." With these words, Millard Fuller summarizes the reason he and others founded Habitat for Humanity, Inc., the need he and others are answering.

When Habitat helps poor families—in nine countries in Latin America, Africa and Asia and in 22 U. S. states—many good things happen: As houses are built, people who might otherwise not have jobs are given meaningful work, not only at the building site but also in felling trees, making bricks and manufacturing cement, nails, and other construction materials. Unskilled laborers get training as masons, carpenters, steelworkers and managers which can help them earn higher incomes than before. In some locations Habitat provides with the house a plot of land for gardening and raising small livestock; fruit trees are planted to reduce soil erosion and provide food; and agricultural co-operatives are started to help the poor gain strength in the marketplace and the financial system.

But most of all, having a decent house to come home to—a house on which they have worked together with friends and neighbors, a house which they are buying themselves—gives people new energy and dignity, new confidence and hope.

At the community Good Friday service, 7:30 at the Bethel United Methodist Church, the offering will

THE CRUCIFIXION

His burdens were heavy, his road rough and narrow
A path way steep and bare
Ending in suffering, death and rejection
Which to only a few caused despair.

Alone and mute, he faced his accusers
As all their false charges were heard
When asked for his side of the story
He uttered not hardly a word.

Not guilty was Pilate's decision
Your evidence against him is slim
But the crowd shouted louder and louder

These words, oh! crucify him!
A weak man was Pilate, and avoided
He could not dispense these men
Saying, I wash my hands of his blood, for he's innocent

He gave them the prisoner then.
To be scourged, insulted, spat on
Then without sign of remorse
They led him off to Golgotha

With crown of thorns, and vinegar soaked sponges
They tormented him as he hangs on the tree
Till he shouts, in desperation
Oh! Father why forsakest thou me?

It was custom to name o'er the victim
The crime that had won him such dues
O'er his head Pilate placed the inscription
This is Jesus "KING of the JEWS"

The death throes which passed through his body
Darkness to the world did bring
The earth shook to its very bowels
As it felt the loss of its King.

HIS DEATH was foretold by the prophets
His suffering, was part of God's plan
Through death and resurrection
He offers salvation to man.

ANN HASTINGS MORTON has just been selected to participate in the U. S. Department of Education's 1984 Fulbright Seminar on Ancient and Modern Israel this summer.

The seminar is jointly sponsored by the U. S. Dept. of Education and the Israel Ministry of Education and Culture. It will be a six-week seminar from June 23 to August 3.

Twenty participants, 10 women and 10 men, have been selected from the United States.

The group will spend four weeks in Jerusalem receiving intensive training in the Hebrew language and having about 100 hours of lectures by leading university professors. Two weeks will be spent traveling throughout Israel to such areas as Masada, Beidichem, Golan Heights, the Dead Sea, Tel Aviv. Time will be spent at Kibbutzim and with Bedouin tribes.

As part of the grant, she may include a week's stay in Athens after the seminar is completed.

SOIL SURVEYS UNDERWAY SOON IN AREA TOWNS

Roger Smedberg, Chairman of the Oxford County Soil & Water Conservation District, reports the District has set priorities for soil mapping for 1984. Soil Scientists of the Soil Conservation Service in South Paris will survey the Towns of Sweden, Stow, Newry, Hanover, Greenwood and Sumner.

The soil survey is part of the Soil Conservation Service effort to have all the land in the organized Towns of Oxford County mapped by 1987. The Town of Sweden should be completed by the end of May and the remaining towns completed by the beginning of October.

The Soil Scientists using spades and augers will walk over the land, digging small holes to determine the type of soil. They will look at such soil features as drainage, texture, depth to bedrock and steepness of slope. After determining the soil type, its boundaries are drawn on an aerial photograph.

Once the maps are reviewed and reproduced they will be available to the public. Individuals, such as woodland owners and farmers and groups including planning boards and conservation commissions, use soils information when making land use decisions.

Currently, about 70% of the organized towns in Oxford County are mapped. Soils information is available at the Soil Conservation Service Office, 1 Main Street in South Paris.

sition period tax bills must be sent to the party who held title on April 1, 1983. The reason for this is that the Maine Bureau of Taxation considers our transition period as the last portion of an 18-month 1983 tax period since the April 1, 1983 valuation was used to calculate transition period tax bills. For those who sold property after that date, the question might arise as to who should pay the bill since the new owner holds title. Technically, the April 1, 1983 owner is responsible for the bill, but morally the new owner is obligated to pay just as he or she did at the property closing when taxes were paid from the date of new ownership. To assist in this matter, copies of the tax bill will be sent to new owners who took possession after April 1, 1983. The Town Office staff will be working with all parties to minimize the effects. Your cooperation and understanding will be appreciated.

Selectmen's Meeting
The Board of Selectmen met in regular session Monday evening, May 16, in the Town Office Meeting Room.

Alva Morrison addressed the Board on low-level nuclear waste disposal plans originally proposed by a state legislative committee for a site near Jordan Brook in Riley Plantation. He reported that the area group, Headwaters Alliance of the Sunday River Valley, is organizing support for a statewide referendum issue proposed by the Maine Nuclear Referendum Committee to permit voters

to approve or disapprove nuclear waste sites proposed by the government. The Board thanked Mr. Morrison for the updated information on the issue.

The Board discussed the need to locate a local source to store and dispense lead-free gasoline once the Town accepts delivery of the new police cruiser. Facilities at the Town Garage do not exist for lead-free gasoline and the Manager was authorized to solicit bids from local gasoline retailers to supply lead-free gasoline for the police cruiser following its delivery late in the spring.

The Board interviewed candidates for boards and committees. Appointments will be made to the Appeals Board, Budget Committee, Airport Development Committee, Planning Board, Recreation Board, Community Safety & Law Enforcement Committee, Municipal Facilities Committee, and Radio Coordination Committee later this month. Eight volunteers were interviewed and the Selectmen expressed appreciation for the many volunteers who have come forward willing to assist in our community activities.

The Board of Selectmen will meet in a budget workshop session on Tuesday at 7 p.m., April 24, in the Town Office Meeting Room.

P-8123-000 UNITED STATES OF AMERICA FEDERAL ENERGY REGULATORY COMMISSION Notice of Application Filed with the Commission (March 20, 1984)

Take notice that the following hydroelectric application has been filed with the Federal Energy Regulatory Commission and is available for public inspection:

a. Type of Application: Preliminary Permit.

b. Project No.: 8123-000.

c. Date Filed: February 22, 1984.

d. Applicant: Paris Hydro Associates.

e. Name of Project: Billings.

f. Location: Little Androscoggin River, Town of South Paris, Oxford County, Maine.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. §791 (a)-(82)(c).

h. Contact Person: Mr. David M. Coombe, Synergics, Inc., 410 Severn Avenue, Suite 409, Annapolis, Maryland 21403.

i. Comment Date: May 21, 1984.

j. Description of Project: The proposed project would consist of:

(1) an existing 150-foot-long, 12-foot-high masonry dam with a concrete cap; (2) an existing 11-acre reservoir with a normal maximum water surface elevation of 343.0 feet M.S.L. with no usable storage capacity; (3) a new powerhouse located at the east dam abutment containing turbine-generators with a total rated capacity of 170 KW; (4) a 50-foot-long, 12.5-KV transmission line; and (5) appurtenant facilities. The project would generate up to 850,000 kWh annually. The dam is owned by the Town of South Paris, Maine.

k. Purpose of Project: Energy produced at the project would be sold to Central Maine Power Company.

l. This notice also consists of the following standard paragraphs: A5, A7, A9, B, C, and D2.

m. Proposed Scope and Cost of Studies under Permit: A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license. Applicant seeks issuance of a preliminary permit for a period of 18 months, during which time it would perform surveys and geologic investigations, determine the economic feasibility of the project, reach final agreement on sale of project power, secure financing commitments, consult with Federal, State and local government agencies concerning the potential environmental effects of the project, and prepare an application for an FERC license, including an environmental report. Applicant estimates the cost of the work under the permit would be \$36,000.

A5. Preliminary Permit: Existing Dam or Natural Water Feature Project—Anyone desiring to file a competing application for preliminary permit for a proposed project at an existing dam or natural water feature project, must submit the competing application to the Commission on or before 80 days after the specified comment date for the particular application (see 18 CFR 4.30 to 4.33 (1982)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

A competing preliminary permit application must conform with 18 CFR 4.33(a) and (d).

A7. Preliminary Permit—Except as provided in the following paragraph, and qualified license, conduit exemption, or small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license, conduit exemption, or small hydroelectric exemption application or a notice of intent to file such an application. Submission of a timely notice of intent to file a license, conduit exemption, or small hydroelectric exemption application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application.

In addition, any qualified license or conduit exemption applicant desiring to file a competing application may file the subject application until: (1) a preliminary permit with which the subject license or conduit exemption application would compete is issued, or (2) the earliest specified comment date for any license, conduit exemption, or small hydroelectric exemption application with which the subject license or conduit exemption application would compete; whichever occurs first.

A competing license application must conform with 18 CFR 4.33(a) and (d).

A9. Notice of Intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, include an unequivocal statement of intent to submit if such an application may be filed, either (1) a preliminary permit application or (2) a license, small hydroelectric exemption, or conduit exemption application, and be served on the applicant(s) named in this public notice.

— Mrs. Colista Morgan, Corres. —

Down a road especially a rural one, is the place where often the best of both man's and nature's world can be observed. This road, the woods, and side hills have taken me through winter and into spring.

Now, down where the wet meadows meet the woods the gurgling, liquid notes of the Redwinged black birds, beginning with the KONK like an object being dropped into the water is a typical voice of spring. The singers toss their note back and forth.

A few ducks are back and we have watched them leap, dripping from the water to circle over the pond a few times then settle back into the water again.

High in a tree as I walked was the song of the song sparrow. To my ears it was like the tinkling of a silver tambourine.

Spring! Who that has been through a Maine winter can ever forget the balm of the coming days of spring.

I saw a lone grackle and heard it rasp out the beginning of a courtship song, that will soon sound from a hundred or more avian throats (too many) the eternal song(?) of spring.

One day walking up the Spring

Road then to the ledges, I was assailed by crow voices floating over the tree tops and down the valley. They seemed to shout "Winter is ending, hard times are done!" "Approaching the ridge I could see but one. He saw me too, for a crow misses nothing. Somehow he knew that I had no gun so stretched his posture like a rooster with beak wide and throat fluffed and gave his lusty call that rang across the mountain side. But wisdom prevailed over arrogance and he dropped from his high perch and sailed away through the trees, braying his defiance. The crow is certainly a good survivor; so many things the difficult world has to hand him. John Burroughs once said of him, "Hardy happy outlaw, the crow, how I love him."

At the road I recognized the jumps and wandering lines. Moles! My lawn is covered with these mole tunnels. They do not hibernate, I have read, but pursue their wormy prey deep into the innards of the earth, retreating with them when frost arrives. As times the mole has to back up, as well as go ahead. In order to accomplish this its fur has no definite "lay" to it. It may be brushed forward as well as backward. This allows it to change gears in "mid-dig". The mole hill is the result of the excavations of a female building a nest chamber.

Spring means different things to different people. Some look forward to the first robin. Others, sap buckets hanging from rock maples or the chorus of peepers from bogs and ponds. Here in New England there is no predictable pattern to the coming of spring. It can come one step forward and two steps back, a series of soft days, then a backlash of winter with a severe storm. It always

Mr. and Mrs. Willard Wight, Mr. and Mrs. Lee Swan attended the annual Maine Snowmobile Association meeting dinner and dance at Bangor Civic Center last week end. Mr. and Mrs. Stephen Wight, Old Town; Mr. and Mrs. David Wight, Dover-Foxcroft, joined them for the banquet and dance.

reminds me of the poem "Two Tramps in Mud Time" by Robert Frost.

The sun was warm but the wind was chill.
You know how it is with an April day
When the sun is out and wind is still.
You're one month on in the middle of May.
But if you so much as dare to speak,
A cloud comes over the sunlit anch.
A wind comes off a frozen peak,
And you're two months back in the middle of March.

This contrariness of our Maine spring gives spice to its unfolding. It is birthing time, too, for gray squirrels are born naked, toothless, and blind and won't leave their nest for six weeks. Muskrats are April babies but won't be foraging until the last of May.

Then there are deer, raccoons and skunks that are born. They know this world should be full of young life with the summer ahead in which to enjoy themselves.

Callers at the home of Frank and Dot Curtis were: Irene Stevens, Eva Felton, Kathy Curtis, Local; Mildred Bowman, Hebron; Alton Kimball, Waterford.

Doris Hayes and I met with other retired teachers at Louvie Coffin's home in West Paris on Thursday. On Saturday we attended the Retired Teachers meeting in Mexico.

Ardell and Betty Hayes, Auburn had dinner with Doris Hayes on Sunday.

Fred and Rena Curtis had as visitors Mr. and Mrs. Walter Curtis and son, Patrick, Farmington; Mr. and Mrs. Albert Curtis and children, Duane Alexander, Buickfield, Dorothy Curtis, Eva Felton, local.

"We Wrote the Book on Color!"

North Paris

— Eveline B. Vatcher, Corres. —

A week of lovely spring weather and the road crew worked five full days. I'll bet they were glad. They sure can change the scenery. The culverts are being put in on the Herbert Ryerson, Earl Cordwell, and Rhoda Vatcher property.

Eveline Vatcher had a doctor's appointment Monday and Thursday P. M. she went to the Stephens Memorial Hospital for chest x-rays and lab tests. The new medication has helped the wheezing a bit, but it hates to go away entirely.

Mr. and Mrs. Joe Vatcher went to Danvers, Mass., on Tuesday to see Joe's mother on her 93rd birthday. We took her sister, Mrs. Flora Gogal, 95, of Saugus, Mass., with us and Joe's sister, Fannie Whitten and son, Ralph, joined us for a party. The head nurse on Mrs. Vatcher's floor brought a small birthday square cake with one candle and Mrs. Vatcher blew the candle out. She had her special dessert of Joe's raspberries which she loves. On their way home it snowed from Gray to South Paris.

Mr. and Mrs. Harlan Abbott went to Lewiston on Wednesday afternoon where Harlan had a doctor's appointment about his bad leg. Harlan may go to a Boston hospital for further treatment.

We have had several cleaning "bees" at the hall in preparation for our supper April 21. The floor will be sanded and fixed up after the supper as the weather is warming up a bit more each day.

Mr. and Mrs. Joe Reidy spent the long holiday week end at their trailer on the Trask Road. Ellis

Ellingwood and Clyde Knights did some work for them. They visited Vatcher's Sat. P. M.

Robert Anderson Jr. of Woburn, Mass., came late Friday night to spend the week end with his Uncle Joe and Aunt Eveline Vatcher. When he got to the former North Paris Store he said to himself "this doesn't look right so I'll go back a bit and start over." He knew it was the second house beyond the Rt. 219 Garage but the yard has a lot of stakes but no wire for a fence so he eventually found it and was surprised at the change of scenery. He returned to his home Sunday P. M.

Callers at Lawrences: Linda Records, Roland Lord, Mr. and Mrs. Joe Vatcher, Jeanne Millett and son, Stevie.

Students are on their Easter vacation this week. Hope it is a fun time.

Mr. and Mrs. "Root" Lawrence had an early Easter dinner Sunday with Mr. and Mrs. Joe Vatcher and their nephew, Robert Anderson, Jr. After dinner Mr. and Mrs. Norman Abbott and Mrs. Alice Goff of Rumford came for the afternoon.

This rainy Monday morning the road crew is working trying to make us look better or worse. Soon it will be easier for us to go through Stearns Hill and Pleasant Valley to go to town but we need to go over the road occasionally to check and see if they are doing it right.

Mrs. Rhoda Vatcher went to Saugus, Mass., as her daughter-in-law is ill.

Get your Easter bonnets ready for the parade as it's later than you think.

NOTES FROM

Evans Notch

White Mountain National Forest

Spring has returned to the Evans Notch Ranger District of the White Mountain National Forest. Forest roads have been closed or posted to restrict heavy loads when appropriate. Back-country foot travel is difficult because of varying conditions from mud to snow at higher elevations. The ski-touring and snowmobiling is at an end for the 1983-1984 winter.

On April 25, District personnel will host a tour of two recently harvested salvage areas that are to be planted this spring. Fifteen acres in one area will be planted with hemlock seedlings, and 131 acres in a second area will be planted with red spruce seedlings. Prospective bidders are asked to meet at the Saw Store at 9 a. m.
